## Product highlights

### Wireless streaming

With wireless streaming, you don't need to download and store large music files on our audio device. Instead, you can listen to favorite songs as they are continuously streamed to all the Music Stations - at the same time. Have your music follow you from room to room with Music Follows Me - no need to restart navigation and playback. Music Broadcast simultaneously broadcasts your desired music from the Center to all Stations. And with My Room, My Music, any family member can enjoy selected music from the stored collection in any room that is equipped with a Wireless Music Center or Station.

### Adding up to 5 Wi-Fi Stations

#### Universal Plug & Play

Universal Plug & Play is an industry standard technology that lets you connect to any Universal Plug & Play enabled device to receive or transmit music. Your Wireless Music Center utilizes Universal Plug & Play to ensure an easy and standard way to connect to other Universal Plug & Play enabled devices. You can easily connect your Wireless Music Center to other media devices to receive or to transfer content.

#### 80GB hard disk/1500CDs

The 80GB hard disk offers a very large capacity for you to store your digital music files. It easily holds up to 1500CDs of your music collection, and the recording speed is so fast that you can basically play and rip a particular song almost at the same time.

#### Music Broadcast - Party mode!

Be your own DJ at your home party and simultaneously broadcast your favorite dance music from the Wireless Music Center to all Wireless Music Stations installed in various parts of your home. Great for parties!

#### Music Follows Me

Music follows Me feature allows you to bring your favorite music from room to room in your house without having to restart navigation and playback of that particular track. By simply pressing a button, your favorite song will follow you anywhere you go in your house.
